

## **HSD UIR Meeting 06/14/04**

---

- ✧ Introductions were made by all present.
- ✧ The very large community meeting/ lunch celebration on May 17<sup>th</sup> was phenomenal. It was deep, broad, and reconnecting.
- ✧ The question of how it was publicized was raised so that it can be reduplicated.
- ✧ personal phone calls
- ✧ forwarded e-mail messages
- ✧ It was encouraging and a reminder to stay connected and keep pushing forward. Inspiring, exciting- the importance of staying connected to community.
- ✧ It was also noted that the community work feels disconnected from the direction of the HSD department.
- ✧ Some people acknowledged feeling isolated because they were the only one from their agency.
- ✧ Large number of people from the Health Department- but they are still feeling isolated because they don't have a critical mass.
